Rob Johnstone Visits Oregon

Dr. Rob Johnstone, Founder and President, National Center for Inquiry and Improvement, spent March 13-15 visiting Chemeketa and Portland Community Colleges to talk with college faculty, staff and administrators about Guided Pathways. As part of his visit on March 13th, Dr. Johnstone spent an hour with the Success Center Advisory Committee (via Zoom distance technology) presenting an overview and exploration of Guided Pathways in Oregon. The power point from the presentation is available on the OSSC webpage (<http://www.occa17.com/student-success-center/>).

As part of the enhanced technical assistance to the OSSC through the Jobs for the Future National Student Success Center Network, OSSC will be receiving individual strategic planning with Rob Johnstone, along with other national partners such as Achieving the Dream and the Aspen Institute, to chart a course for interested Oregon community colleges to implement Guided Pathways. The Student Success Center Advisory Committee will be engaged as plans are developed.

Please join the Oregon Student Success Center on **Thursday, April 6th**, for Guided Pathways Overview and Exploration webinars presented by Dr. Rob Johnstone, Founder and President, National Center for Inquiry and Improvement. On each **hour-long** webinar, Dr. Johnstone will provide an overview of Guided Pathways and then will dig a bit deeper to illustrate how a particular CC group is impacted. The different groups highlighted on April 6th are faculty, student services, instructional administrators, and presidents/board members/and business officers. Below is the information for each webinar and all are welcome to 'attend' any of the sessions. Each session will be recorded and posted on the Oregon Student Success Center website for those unable to join live.
