# PRESIDENT'S WELCOME

**Austin Folnagy**  
OCCA President  
Lane Community College

On behalf of the OCCA Board of Directors, I am thrilled to welcome you to the 2024 OCCA Annual Conference! This year's theme, *Charting a Course to the Future*, promises an inspiring and thought-provoking experience. We've carefully curated keynote speakers and breakout sessions designed to spark creative thinking and

promote innovative solutions for the challenges facing higher education today.

As we navigate the evolving landscape of higher education, community colleges face unprecedented difficulties in meeting the diverse needs of our students. There is no universal solution for supporting their educational journeys. This conference is crafted to help us deepen our understanding of current issues while exploring our roles and responsibilities as leaders, as well as to examine how we can better fulfill our roles in driving progress. Together, we will ensure that our colleges remain dynamic, inclusive institutions that offer equitable opportunities for all learners, while also anticipating and preparing for the future.

We have an engaging lineup of breakout sessions aligned with our core theme. One of the highlights will be a panel discussion featuring key legislators who will share their perspectives on the obstacles and opportunities facing community colleges. Our Welcome Dinner on Wednesday evening will feature a unique panel of community college

students, who will provide insight into their personal journeys and the challenges they face. In addition to these sessions, you'll have plenty of opportunities to connect with fellow attendees during breaks and at the celebratory Howard Cherry Awards Banquet on Thursday.

I'm also excited to introduce a new session this year: *Hot Topic Harbor*. This world café-style session will allow you to engage with your peers across five different topic areas, exchanging insights and sharing challenges you're facing at your own college.

We're fortunate to have two exceptional keynote speakers for our general sessions. Marty Alvarado, from SOVA Solutions, is a passionate advocate for transformative and equitable education, with over two decades of experience in reshaping education and workforce development systems. Parfait Bassalé, from Bassalé Consulting, led efforts to reduce the achievement gap for historically excluded students during his tenure as the Executive Diversity Officer at South Puget Sound Community College, which was named a 2023 Aspen Top 10 Community College finalist.

I would also like to extend a heartfelt thank you to our many sponsors, whose support is vital to the success of this conference. Please take a moment to visit their tables in the main conference room in the Longhouse.

OCCA is committed to helping you become more engaged and effective board members, especially during these transformative times. I hope you leave this conference feeling inspired, informed, and ready to help your college chart its course for the future.

*Jollee Patterson – Partner, Miller Nash*

Pop-up protests! Encampments! Walk outs! Occupations! Free expression is one of the hottest issues on our college campuses, and doesn't show signs of cooling down anytime soon. Come to this session to learn key First Amendment legal principles, how those intersect with civil rights protections, and how to navigate this in your community college context.

# THURSDAY NOVEMBER 7

10:15-11:15 a.m.  
**BREAKOUT SESSIONS**

## **Leveraging & Aligning Strategies to Meet Oregon's Adult Education Attainment Goal - Council House B**

*Shalee Hodgson – Policy Advisor, Higher Education Coordinating Commission*

*Cindy Lenhart – Instructional Outreach Dean, Central Oregon Community College*

*Kelley Keith – Dean of Adult Basic Skills and Career Pathways, Mt. Hood Community College*

*Kristen Kulongoski – Manager of Adult Basic Skills and Career Pathways, Mt. Hood Community College*

*Holly Nelson – Chief Workforce Innovation and Community Success Officer, Chemeketa Community College*

*Britany Ellerbrook M.Ed – Career Pathways Grant Director, Clackamas Community College*

Community colleges in Oregon are using strategies like Integrated Education and Training (IET) to help adult learners advance in education and careers by combining basic skills, career pathways, and technical education with employer partnerships. This approach integrates academic support and wrap-around services, leveraging multiple funding streams to enhance student success. In this session, panelists will discuss federal and state resources, strategies, and examples of how colleges have collaborated to develop effective programs and improve student outcomes.

## **Community Bridges: College Boards Help Connect Institutions with K12 Partners - Council House C**

*Jessica Howard – President, Chemeketa Community College*

*Neva Hutchinson – Board Member, Chemeketa Community College*

*Lisa Skari – President, Mt. Hood Community College*

*Diane McKeel – Board Chair, Mt. Hood Community College*

*Stephanie Bulger – President, Lane Community College*

*Zach Mulholland – Board Chair, Lane Community College*

Oregon's lack of statewide education systems for secondary and postsecondary education exacerbate disconnection between colleges and their high school feeders, resulting in less than optimal outcomes. To combat this disconnect and build partnerships, community colleges in the state employ creative strategies to forge connections with K-12 partners in their service areas. This session presents strategies in place involving Board members at some of Oregon's colleges, and invites input and discussion to surface other promising practices from around the state.

# THURSDAY NOVEMBER 7

**10:15-11:15 a.m.  
BREAKOUT SESSIONS**

## **Oregon Community College Hispanic Serving Institution Aspirations - Sitka Room**

*Vivi Caleffi Prichard – Chief Diversity Officer, Chemeketa Community College*

*Jason Dorsette – Executive Director, Institutional Equity, Diversity, and Inclusion, Linn-Benton Community College*

Community colleges can weather the “enrollment cliff” by focusing on their mission of providing access to higher education to vulnerable populations. The decline in high school graduates starting in 2025 will allow colleges to focus on students more likely to enroll in their community college. Adults over 25 and the Latino/a/x population are enrolling in college at higher rates, and immigration may offset some declines. This session will explore what it means to be a Hispanic Serving Institution (HSI) and the efforts taking place at Linn-Benton, Chemeketa, and Columbia Gorge community colleges.

Marty will engage participants in thoughtful discussions around the mindset and practical approaches needed to transform their colleges for the future. Discussion themes will touch on leveraging Artificial Intelligence (AI), shared governance, competency-based education, microcredentials, innovative partnerships, modernizing outdated policies, and optimizing shared services and cross-institutional collaboration. Participants will leave with context for modernizing their institutions, and ideas for practical, action-oriented solutions to adapt and thrive in the face of rapid change. Join us as we reimagine the future of higher education.

## **PERS Basics & Side Accounts - Sitka Room**

*Carol Samuels – Managing Director, Piper Sandler*  
*Brendan Watkins – Vice President, Piper Sandler*

PERS is often in the news, yet it is generally not well understood. Further, changes are coming to the administration of “side accounts” which could have direct implications for community college budgets. What are the basics? Why are the costs associated with the pension program so high and why do they only seem to increase? What are the implications for community college budgets going forward? What are “side accounts”, why did jurisdictions borrow to set them up, and what changes is PERS anticipating making to their administration? These questions and more will be answered in as clear a way as the topic of PERS allows!

INCREASED ACCESS.  
TRANSFERRING  
MADE EASY.

WGU's competency-based curriculum allows students to apply existing knowledge to their education. Oregon community college graduates benefit from a comprehensive transfer policy, with A.A. or A.S. degree holders typically qualifying for Upper-Division standing.

WGU partners with community colleges, offering clear transfer pathways to help students understand how their prior coursework applies to a WGU degree.
